

Contessa Area Drainage Improvements Project

Public Works Department

Let's meet the team...

PUBLIC WORKS

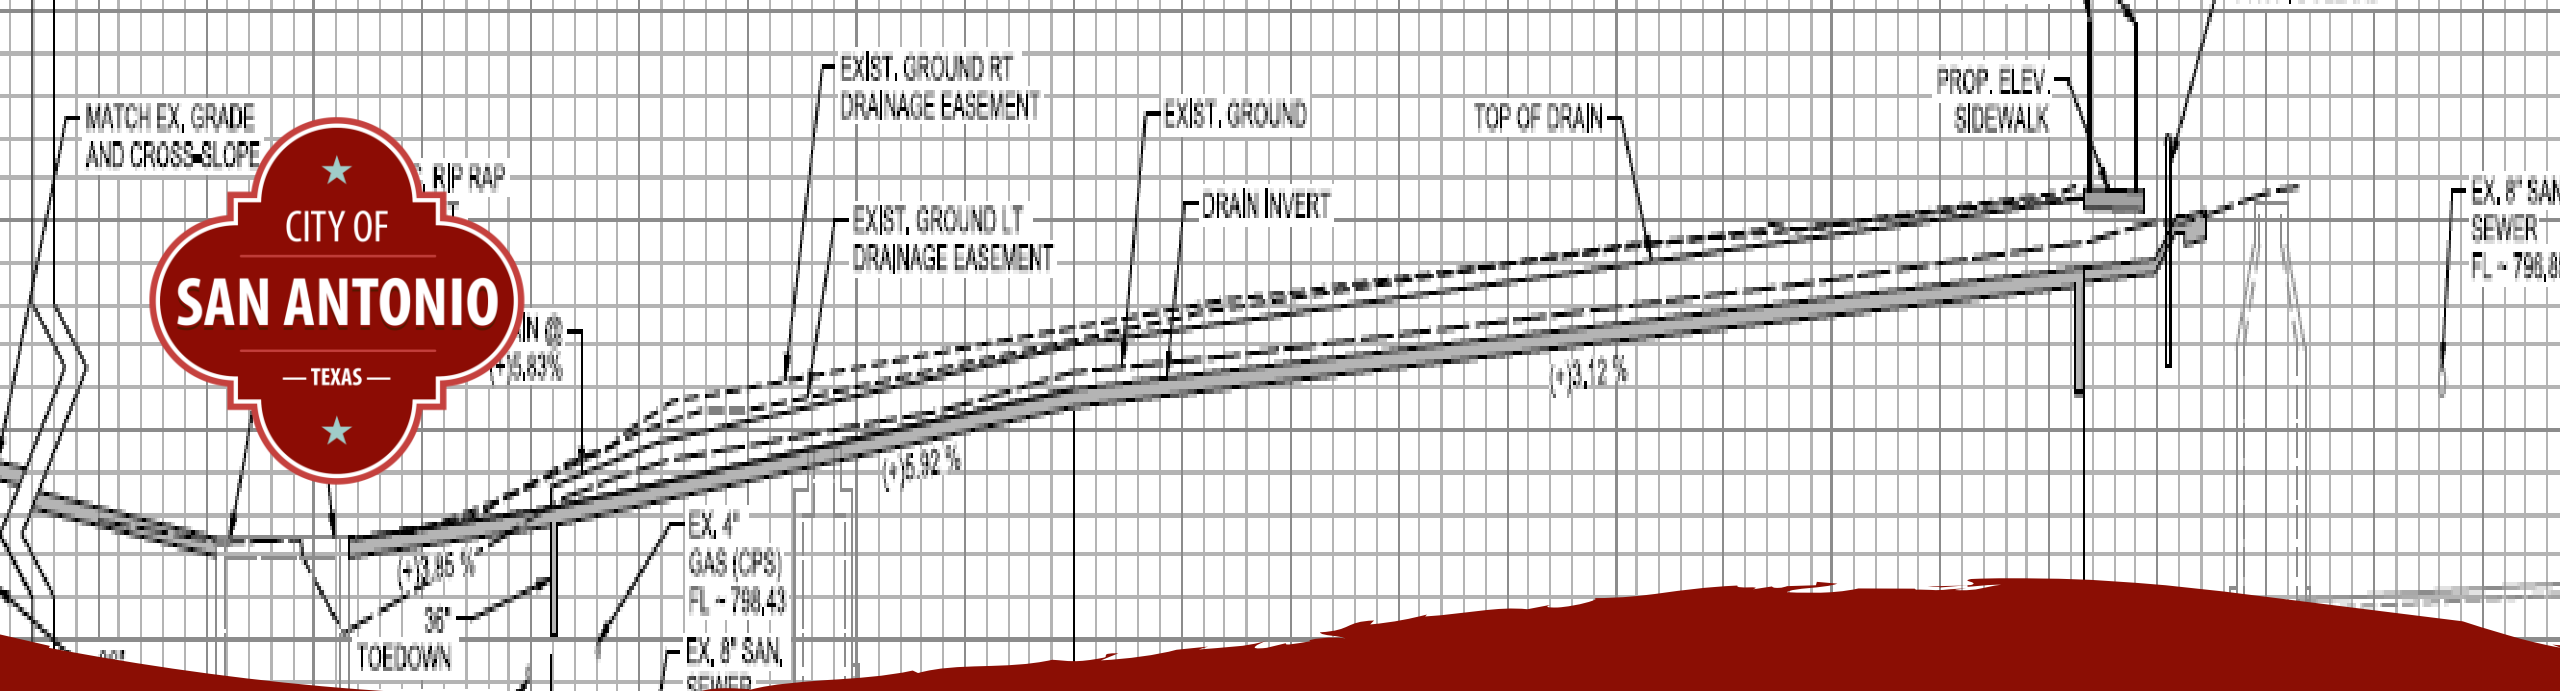

Council District 1

Background

- An undersized channel causes water to back up in the street
- In addition to ponding in the street, water backs up onto adjacent properties

What's the plan?

Drainage Improvements

- Remove trapezoidal flume

Drainage Improvements

- Remove trapezoidal flume
- Build a 12" deep x 6' wide rectangular flume

Drainage Improvements

- Remove trapezoidal flume
- Build a 12" deep x 6' wide rectangular flume
- Install new underground storm sewer and inlets in the road and under the new rectangular flume

Drainage Improvements

- Remove trapezoidal flume
- Build a 12" deep x 6' wide rectangular flume
- Install new underground storm sewer and inlets in the road and under the new rectangular flume

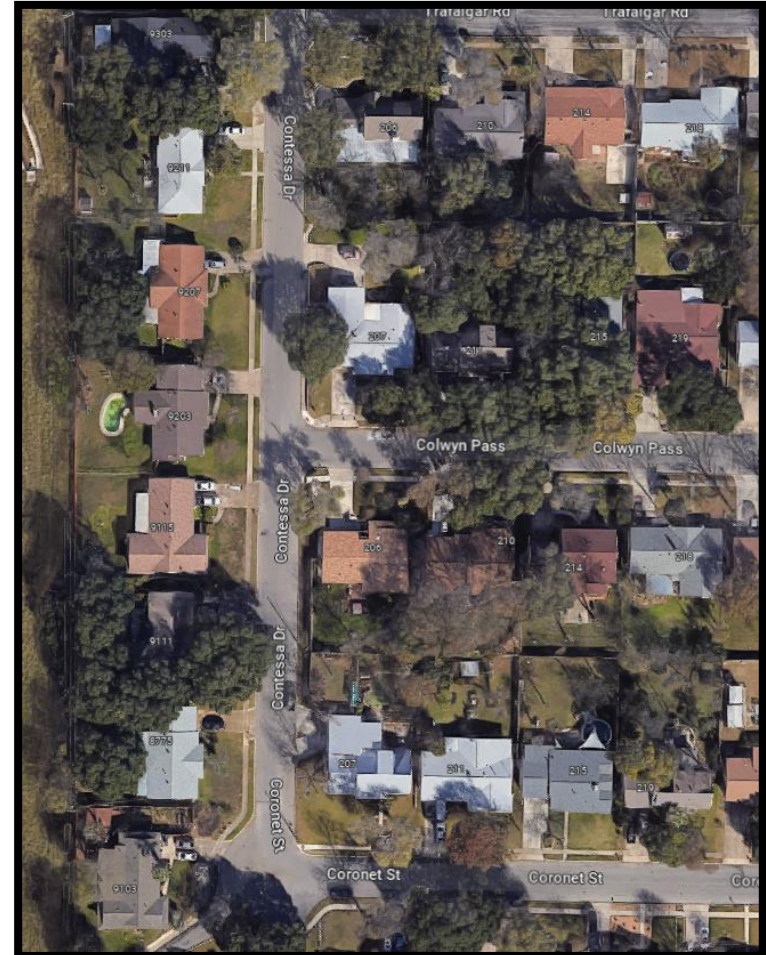

Street, sidewalk, and driveways

- Install a sidewalk bridge across the concrete flume

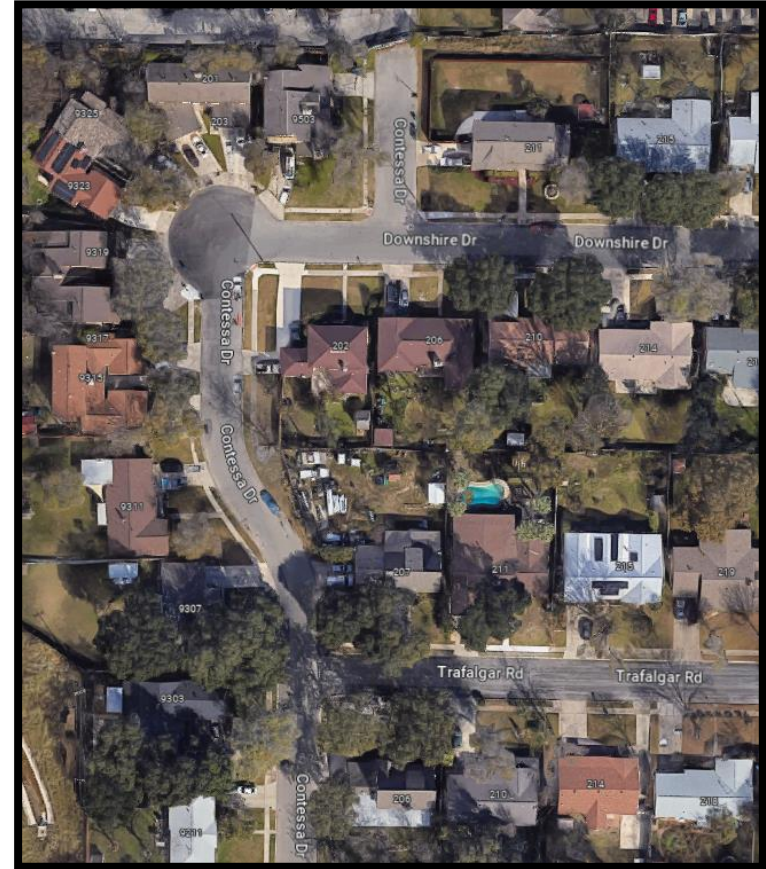

Street, sidewalk, and driveways

- Install a sidewalk bridge across the concrete flume
- Lower and reconstruct Contessa from just North of Colwyn Pass to the cul de sac

Street, sidewalk, and driveways

- Install a sidewalk bridge across the concrete flume
- Lower and reconstruct Contessa from just North of Colwyn Pass to the cul de sac
- Mill and overlay Contessa from Downshire Drive to just North of Colwyn Pass
- Replace curbs, sidewalks, and driveways, as needed
